MEMORANDUM

TO: Metropolitan Planning Organization Committees

FROM: Kip Harrington, Long Range Planning Manager

DATE: May 19, 2022

RE: **22TP013 – Cambell Street Structure Study – Draft Report**

The Rapid City Metropolitan Planning Organization initiated the Cambell Street Structure Study in an effort to identify potential mobility improvements along the Cambell Street corridor. The Cambell Street Structure that extends over the Rapid City, Pierre and Eastern Railroad is scheduled to be replaced in the next five to 10 years, offering an opportunity to make the surrounding area safer, more accessible, and more functional for everyone.

A routing and infrastructure improvement recommendation was developed through an evaluation of travel analysis data, gathering of public input, regular discussions with local and regional stakeholders, and an alternatives analysis. The recommended improvements will support safe and comfortable multimodal travel through this the Cambell Street structure area.

STAFF RECOMMENDATION: Staff recommends acknowledging the Cambell Street Structure Study – Draft Report.
